NOPC 17-011708 -- Nature and Circumstances of Potential Claim

Concerns expressed by the State and professional surveyors regarding the practicality of the T1 anchor rod, sleeve, and dowel as-built survey requirements described in Special Provision 10-1.31 led Kiewit/FCI/Manson AJV ("KFM") to propose a revised survey plan for this work. This plan was described to the State in KFM letter #355 dated December 20, 2007. KFM performed its as-built survey accordingly and submitted the collected data to satisfy the requirements in Special Provision 10-1.31

The State has acknowledged that a Contract Change Order ("CCO") would be issued in accordance with Standard Specification 4-1.03 that would revise the as-built survey requirements of Special Provision 10-1.31. KFM requests that a CCO to accept the as-built survey data collected and submitted be issued immediately.

Imminent completion of all contract work by KFM and Contract Acceptance by the Department without an approved contract change order for this work gives rise to this NOPC at this time.

NOPC 18-011708 - Nature and Circumstances of Potential Claim

Kiewit/FCI/Manson AJV ("KFM") has performed work in accordance with issued but un-approved Contract Change Orders 34 and 34, Supplement 1, at the State's direction. These change orders have not been approved as of this date.

KFM requests compensation for all work performed as a result of the State's direction associated with CCO's 34 and 34 Supplement 1 in accordance with Standard Specification 4-.03.

Imminent completion of all contract work by KFM and Contract Acceptance by the Department without an approved change order for this work give rise to this NOPC at this time.
